THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed ON 2/18/2009 have been fully considered but they are not persuasive.

Page 2, lines 18-22, states "According to the MHP standard, the TV receiver loads said MHP software applications from the broadcast stream. The MHP terminal device receives a transport stream from the broadcast interface (satellite, cable, terrestrial, etc.). It detects that MHP applications are present and can load and launch such applications". Therefore, limitation "wherein said MHP broadcast applications are configured to be identified, loaded, and launched within said MHP terminal device" is known in the art and taught by the MHP standard.

However, after further consideration the examiner withdraws her rejection of claim 16. It is not known in the art to include an object carousel in a local network device for transmitting MHP applications in the local network. The MHP specification teaches an object carousel for transmitting broadcast MHP applications via broadcast protocols, not MHP applications that are locally transmitted through a network.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Gellner on 6/16/2009.

The application has been amended as follows:

Claim 1: line 6, delete last "and".

Claim 1: line 9, at the beginning of the line, insert – **object carousel generators**
in --.

Art Unit: 2423

Claim 1: line 12, at the end of the line, replace “.” with -- ; **and** --.

Claim 1: add line 13, -- **wherein said object carousel generators are configured to segment said local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets.** --.

Claim 15: line 14, delete last “**and**”.

Claim 15: line 16, at the end of the line, replace “.” with -- ; **and** --.

Claim 15: add line 17, -- **an object carousel generator configured to segment said local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets.** --.

Delete **claim 16.**

Claim 23: line 10, delete last “**and**”.

Claim 23: line 12, at the end of the line, replace “.” with -- ; **and** --.

Claim 23: add line 13, -- **configuring an object carousel generator to segment said local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets.** --.

Claim 30: line 10, delete last “**and**”.

Claim 30: line 12, at the end of the line, replace “.” with -- ; **and** --.

Claim 30: add line 13, -- **configuring an object carousel generator to segment said local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets. --.**

3. The following is an examiner's statement of reasons for allowance:

4. The prior art fails to teach or render obvious the claimed invention taken as a whole, the invention comprising an MHP terminal device comprising: a broadcast interface configured to receive a broadcast transport stream, wherein broadcast MHP applications to be launched at said MHP terminal device are transmitted within said broadcast transport stream and are received via said broadcast interface, wherein said MHP broadcast applications are configured to be identified, loaded and launched within said MHP terminal device;

a local network interface configured to connect said MHP terminal device to a local network, and for receiving local network transport streams emanating from object carousel generators in other network devices connected to said local network so that local network MHP applications providing user interface resources according to a MHP standard to be launched at said MHP terminal device are transmitted within said local network transport streams and are received via said local network interface; and

wherein said object carousel generators are configured to segment said local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets.

Art Unit: 2423

The closest prior art, US Patent 7,200,683 B1 to Wang, teaches a terminal device capable of receiving information from connected network devices to create GUIs for controlling the network devices. This control information is transported using MPEG-2. US Patent Application Publication 2002/0047860 to Ceulaer teaches the use of MHP to organize multiple applications resident on a device. However, the prior art fails to teach **a network device containing an object carousel generator configured to segment local network MHP applications into a set of data packets, and to repeatedly transmit said set of data packets.** The examiner was unable to find art teaching object carousel generators for transmitting MHP applications in a local network.

Conclusion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
